NIKHIL GAWAND

UX ANALYST

Certified Usability Analyst with 10+ years of experience in diverse range of 'digital and experience design' projects.

I have been focused on creating meaningful experiences through research-based understanding of our users and translate the same in workflows and layouts that support user needs, and that are delivered through creative and attractive UI designs.

Strong believer in collaboration between business (stakeholders, product. owners) and target users to understand the requirements and to evaluate the problem areas in existing application.

RELEVANT WORK EXPERIENCE

UX ANALYST
